MONA KUHN

In her latest exhibition, *The Schindler House, A Love Affair*, artist Mona Kuhn lyrically reconsiders the realms of time and space within the architectural elements of the Schindler House in Los Angeles.

The exhibition consists of solarized and color photographs, and a multichannel video and sound installation. The enigmatic subject of Kuhn's solarized pictures is a fictional, ethereal figure inspired by a letter from the renowned architect R.M. Schindler to a mysterious lover.

Shot in the 1920s modernist house designed and built by Schindler on Kings Road in West Hollywood, Kuhn's photos capture the physical presence of this mysterious woman even as it seems to be dematerializing.

Throughout a career spanning more than twenty years, Mona Kuhn is considered a leading artist in the world of figurative discourse. Her distinct aesthetics have propelled her as one of the most collectible contemporary art photographers.

Previous iterations of this installation have been exhibited at institutions and museums such as AD&A Museum and KUNSTHAUS-Göttingen in Germany.
